Here it is from the RTC. Note it is one of many issues in this permit. I'll send you a summary, which I sent to OW last week, in the next e-mail.

We saw the fact sheet language and the discussion in the Taunton brief, but not the specific language or comment response for South Essex. If you have the South Essex info handy, that would be great.

Thanks!

Dave and Ross,

I plan to call you at 202-564-3248 and the permit writer Michele Barden at an off-site location. If that's all the parties, I can do it from my phone without a conference call call-in number.

You say you have seen the SESD fact sheet. Have you seen the RTC response to the permittees comment on the effluent flow limit?
